

To: **MUIRFIELD DESIGN CONTROL COMMITTEE**

Application for: **Vegetable Garden**

Date: \_\_\_\_\_ Lot #: \_\_\_\_\_ Phase # \_\_\_\_\_

Name: \_\_\_\_\_ Address: \_\_\_\_\_

Phone: \_\_\_\_\_ E-mail: \_\_\_\_\_

This application requests approval for proposed changes affecting my lot. I understand that the Committee meets regularly, that they may take up to 30-days to respond to this request and will respond sooner if possible. To expedite the application process, please find enclosed 2 copies of this application and all relevant details. I understand that one copy of this application will be retained on file at the Association office and the other will be returned to me. Pertinent parts of this application submission include:

- Site plan showing footprint of house, property lines, easements, no-build zones with location and dimensions of the proposed garden
- Photos of garden area
- Written commitment that the garden will be maintained in accordance with the following guidelines in a neat and orderly manner
- Design Review fee \$5

My signature below certifies my commitment to plant and maintain the garden in accordance with all the requirements as outlined in the following guidelines.

Owner Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**MUIRFIELD ASSOCIATION, INC.**  
**GUIDELINES FOR AN ANNUAL VEGETABLE GARDEN**

To obtain approval to plant a garden, two complete applications including drawings, details and photographs must be submitted to the Muirfield Design Control Committee prior to planting season. Following the following guidelines will help you submit a successful application and understand your obligations.

**A vegetable garden requires regular maintenance;** weeds must be removed.

Vegetable gardens must be located within the buildable area of the property so that preparation, planting and maintenance can be performed from your property. Encroaching onto a neighboring property or common area is prohibited. Keep plant material within the confines of the edged, defined area. Remove and destroy any dead or diseased parts of plants.

Fencing and mesh screening of all types around the garden, upright frames or supports and other vertical elements are prohibited.

Any type of edging material or supports must be confined low to the ground and maintained in good condition at all times.

**At the end of the growing** season, clear all debris from the garden, and prepare for next year's garden or restore the area to original.
